WHITE GOLD LINE

DONKEY MILK

Donkey milk is called the "white gold" of cosmetics. In fact, it is characterized by the presence of innumerable minerals and proteins that give the skin softness.

Donkey milk is rich in Vitamin A and E, both of which are

very important for preventing skin aging because they act respectively on the renewal of membranes and on the stability of cell structures. Moreover, it is characterized by vitamin C which promotes the slowing of

skin aging and accelerates the healing mechanisms.

Essential Oils

10 ml

100% PURE

Essential oils, that is the set of aromatic substances responsible for the scent of plants, have been known and used since ancient times.

Over the centuries they have experienced an alternation of glory and oblivion, but starting from the 90s, essential oils have returned to being the subject of investigation and, in particular, there has been an ever-wider use of what is called Aromatherapy. This term refers to the use of essential oils in order to improve the quality and the feeling of health and well-being on a physical, emotional and mental level.

HSOLOIL

TANNING SUN OIL with walnut and St. John's wort is a strong tanning agent, given the presence of the walnut husk which is traditionally used to protect and tan the skin. This substance reacts with the keratin present in the epidermis, forming a brown pigment complex, thanks also to the natural presence of carotene and flavonoids. The effect that hypericum has on the skin not only helps to have a golden tan but, thanks to its emollient properties, it manages to give the skin a dark color without damaging it, favoring the natural tanning process during exposure to Sun.

3 valid reasons to prefer Sorgenta Wellness

1 Sustainability of the environment

The elimination of plastic (PET) packaging is an ecological step necessary to reduce the worrying pollution of the oceans. It is necessary to have constant attention on the well-being of the entire ecosystem of the planet because we have reached worrying levels. In fact, the European Commission, meeting in Strasbourg in January 2018, decided to make Europe the leader in the fight against plastic presenting new anti-pollution targets.

Sorgenta Wellness Drink offers its contribution to this urgent ecological need.

2 Health at Km0

Sorgenta Wellness Beauty uses water already made potable from the water mains, but the chlorine used, with its antibacterial function, often has an unpleasant taste. Sorgenta Wellness Drink purifies it more by means of high-tech 3M filters, obtaining good, very pure water, safe and immediately available at Km0, avoiding useless, very expensive and tiring transports.

3 Sensitivity to Savings

First of all economic savings, but not only, Sorgenta Wellness Drink is also sensitive to saving time, energy saving. The Sorgenta Wellness Drink water dispenser is equipped with 7 3M filters included in the price with an autonomy of 20,000 liters, for a duration of 7/10 years.

NEW HERMETIC HYDRONIC SYSTEM:

- MORE EFFECTIVE REFRIGERANT TECHNOLOGY
- PERFORMING COOLING
- CHEAPER
- COLD WATER IN LESS TIME.

3M Filter

Sorgenta Wellness Drink

It is equipped with a high-tech filter that performs a nanofiltration of the water without changing the chemical characteristics but eliminating all pollutants.
